Full-Stack Developer (MERN) | Next.js & React Specialist

## PROFESSIONAL SUMMARY

---

Full-Stack Developer specializing in building production-ready SaaS applications and responsive web interfaces. Transitioned from Civil Engineering to Software Engineering, bringing disciplined problem-solving and attention to detail to every codebase. Proficient in the modern React ecosystem (Next.js, TypeScript) and the MERN stack. Creator of InvoiceDeck, a comprehensive invoicing platform for freelancers.

## TECHNICAL SKILLS

---

Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Frontend: React, Next.js (App Router), Tailwind CSS, Framer Motion, Responsive Web Design, Accessibility (a11y)

Backend: Node.js, Express, Supabase (PostgreSQL), MongoDB

Tools: Git & GitHub, Vercel, Paystack Integration, REST APIs, Postman

## FEATURED PROJECTS

---

### InvoiceDeck | Founder & Lead Developer | [Jan 2025 – Present]

- Built and deployed a full-stack SaaS invoice platform for freelancers using Next.js 14, TypeScript, and Supabase.
- Implemented complex features including recurring billing, multi-currency support, and a secure client payment portal.
- Designed a responsive, accessible UI with Tailwind CSS and integrated Paystack for payment processing.
- Managed the entire product lifecycle from database schema design to Vercel deployment.

### EduConnect | MERN Stack Capstone | [Apr 2025 – May 2025]

- Designed a course management platform for educators and learners using the MERN stack.
- Built a custom dashboard for tracking student progress and managing course content.
- Implemented JWT authentication for secure user sessions.

## WORK EXPERIENCE

---

### Independent Full-Stack Developer | Self-Employed | [Jan 2025 – Present]

- Designing and building custom web applications for clients and personal ventures.
- Focusing on performance optimization, SEO best practices, and mobile-first design.
- Continuously learning and integrating new technologies like AI integration (OpenAI API) and Real-time databases.

### Software Engineering Trainee (MERN Stack) | Power Learn Project Africa | [Dec 2024 – May 2025]

- Developed 3+ full-stack applications including a Fitness Tracker and Real-Time Chat App.
- Collaborated in agile-style workflows, conducting code reviews and practicing strict version control.
- Mastered core web concepts: Authentication, API integration, and State Management.

### Engineering Consultant | Sari Consultants Ltd | [Mar 2023 – May 2023]

- Leveraged engineering background to support data analysis and project planning, developing transferable skills in precision and technical reporting.

## EDUCATION & CERTIFICATIONS

---

### **Power Learn Project (PLP) Africa**

Certificate in Software Engineering (MERN Full-Stack Specialization) – *Dec 2024 - May 2025*

### **Web Development Fundamentals**

IBM SkillsBuild – *Jul 2025*

### **Technical University of Mombasa**

Diploma in Building & Civil Engineering, GPA: Distinction – *Jul 2021 - Feb 2024*
